In 2012, Thai GDP grew by 6.4% which increased significantly from 0.1% in 2011, reflecting a rebound from the impact of flood crisis of late 2011. The recovery was mainly contributed by the government's stimulus schemes including rice pledging, daily minimum wage hike, and first-time car buyer tax rebate. To stimulate the recovery, the central bank also reduced the reference rate to 2.75% in 2012 from 3.25% of late 2011, and the corporate income tax was reduced to 23% in 2012 from 30% in 2011.

For the car industry, new car sales raised sharply to 1,432,052 units in 2012 which increased 80.3% from 794,081 units in 2011, reflecting the threefold demand surge from flood-driven delay, post-flood recovery, and first-time car fancy. The year of 2012 was a bright bumper year for the industries of car production and hire-purchase alike.

The industrial sector recovered quickly as manufacturers increased investment in machinery and requirement for working capital to serve increased orders. Thus, the leasing and factoring businesses also showed the increase in demand.

Consequently, the net profit rose to THB 488 million in 2012 increasing 47.3% from THB 332 million in 2011.

The total portfolio climbed to THB 22,786 million at the end of 2012 increasing 28.8% from THB 17,686 million of 2011 owing to the increased disbursements. Corporate Governance and Corporate Social Responsibility

The Board of Directors has adhered to corporate governance policy and corporate social responsibility to encourage the company to enhance efficiency, effectiveness, transparency, and assessability of the management. This eventually will create confidence and long-term benefits of all shareholders, investors, stakeholders, social, environment and other relevant parties.

The company set the social activities projects to provide funds to school and scholarships to students. In 2012, the Company received the “Excellent” grade from the AGM Assessment Program of Listed Companies 2012 organized by the “Securities and Exchange Commission” in conjunction with the “Thai Investors Association”. In addition, the company received the announcement of the “Very Good” status for the Corporate Governance Report of Thai Listed Companies 2012 published by the “Thai Institute of Directors Association”.

2013 Business Prospect and Strategy

The Thai economy in 2013 is forecasted to grow 4.5% - 5.5%. The public spending will increase as the government deploys investments in water management and flood prevention programs and transport infrastructure projects for AEC to spur the economy.

The hire-purchase industry in 2013 is projected to keep abreast of the buoyant demand of the auto industry which is forecasted an 11.7% growth over 2012 to reach 1.6 million units thanks to the back orders of first-time cars and persistent strong demand.

Increased investment from both the public and the private sectors will be conducive to the businesses of leasing and factoring, especially the government’s infrastructure mega projects which will benefit our key segment of transportation and construction vehicles and equipment.

The business strategy is composed of two dimensions. The first dimension relating to the growth strategy is to seek for continuous profitable growth through providing financial services to individuals and small-and-medium-sized enterprises. Future growth direction covering market expansion to cover the approaching AEC has already been carved out. To pair up with the above growth strategy, the second dimension relating to the competitive strategy is to seek for service differentiation through providing quality, agility and flexibility to the selective target customers in our niche segments.
